Class 24: Guest Intervention – YesAIps

Session 24 of 36 – Guest Session

Data-driven Systems Engineering

Flexible, approx. 17 November

Guest Session

- Presented by: YesAlps, an external partner.
- Topic: requirements and costs.
- Date: flexible, currently planned for approximately 17 November, placed after Class 23 and before the agile toolkit practice in Class 25.
- Materials, examples, and technical content for this session are provided directly by the guest speaker and are not authored in this deck.
- This placeholder exists only to keep the session numbering complete in the 36-session course sequence.
